

Paper Title

Authors with affiliation

Introduction

- Identifying the Research Problem
- Background or Literature Review
- Significance of the research

Methodology

- High-Level Block Diagram, Flowchart, or Mathematical Derivation

Experimental Setup and Dataset

- Experiment Setup
- Dataset

Results

- Results Summary with Diagrams and Tables

Discussion and State-of-art Comparison

- A short discussion on achieved result
- Advantages of the Developed System Over State-of-the-Art Systems

University of Rajshahi

WESTERN SYDNEY UNIVERSITY

Conclusion & Future work

- Achievement of the research
- Contribution to the society
- Limitations
- Future work

Thanks and QA
